

Scope

Natural Intensive Cleaner is the vigorous basic cleaning of heavily soiled floors and surfaces. Stubborn dirt is dissolved and gently removed by the intensive cleaning power of natural oils.

All surfaces such as wood, cork, stone, Klinker, Terrazzo, Tiles, plastic floors, etc. indoors and outdoors

Technical features

NATURAL Intensive Cleaner has been specially developed for the basic cleaning of heavily soiled floors. High-quality plant oils specially saponified have a strong, yet gentle cleaning power so as not to damage the surface.

Ingredients

Pure plant oils, water, eucalyptus oil. Read our full declaration.

Type of material

Intensive cleanser made from pure, natural, specially saponified plant oils.

Use

Shake well before use!

Normal cleaning:

250-500 ml / 5 lt. water.

For heavy, stubborn soiling:

1lt. cleaner / 1lt. water.

Use lukewarm water to clean. Wipe, mop, brush, cleaning pad (green) with handle or single-disc machine.

Oiled surfaces should never be cleaned with a microfibre cloth.

Processing

NATURAL Intensive Cleaner is used diluted after soiling.

Vacuum before cleaning. Rub the bottom with cleaning solution and pad. For joints (stone and tiles) use a brush. Remove the dirty water with a damp wipe as quickly as possible and clean it in the clear. Wash out the water. Change the water several times.

We recommend a wet vacuum to suck off the dirty water on the surface. Caution, risk of slipping!

For sensitive surfaces, etc., first test clean an inconspicuous area.

ATTENTION! Work on wood and parquet floors only when damp with mist. Avoid standing water on the surface, otherwise damage to the joint area can occur due to swelling of the wood.

Drying time:

12-24 hours, depending on the surface

Aftercare

For oiled, soaped or waxed floors, we recommend **re-oiling** with Natural Parquet Oil, Natural Care Wax Oil, Natural TEC OIL 501 or Natural Finish Oil. Be sure to observe the drying time!

Specifications

Flash point: not applicable
Consumption: depending on dilution
Dilution: up to 1:1 with water
Packaging: 980 ml / 5 lt.

Shelf life and storage

Cool, dry, frost-free, undiluted, sealed and with proper storage
Can be stored for 3 -5 years.

Also store natural cleaning and care products **out of the reach of children**. Empty the container completely and recycle it.
